Education

- **Heritage Institute of Technology**, Kolkata, India Oct 2022 – Jun 2026
B.Tech, Computer Science (Specialization: IoT, Cybersecurity, Blockchain)
CGPA: 8.85/10
- **Vivekananda Mission School**, Kolkata, India 2022
ISC (Class XII), **Percentage: 94.25%**
- **Vivekananda Mission School**, Kolkata, India 2020
ICSE (Class X), **Percentage: 93.80%**

Work Experience

- **Software Development Engineer Intern, WEBEL** - Kolkata Jun 2025 – Present
 - Created a complete, multi-tenant Internship Management System intended to automate the entire internship life cycle for administrators, partner organizations, mentors, and candidates.
 - The system features a secure, role-based structure with separate portals for Super Admins, Organization Masters, Mentors, and Applicants, including key functions like organization/user management, internship creation, and secure two-factor authentication for administrative users.
 - *Tech Stack: Java, Spring Boot, Spring Security, JWT, Next.js, PostgreSQL, Docker.*
- **Software Developer (Freelance), RETAR MEDISERVE PVT. LTD.** - Haldia Oct 2024 – Feb 2025
 - Developed a multi-vendor hotel management system with Next.js and MongoDB, enabling seamless booking and property management.
 - *Tech Stack: Next.js, JWT, MongoDB, Vercel.*

Conferences and Presentations

- **Automated Smart Irrigation System Using IoT-Enabled Autonomous Vehicle with Predictive Analytics**
Presented at the Seventh International Conference on Computational Intelligence in Communications and Business Analytics (CICBA 2025), Jadavpur University, Kolkata, India.

Projects

- **KRISHI-KONNECT - Autonomous IoT-based Smart Irrigation System** [GitHub Link](#)
 - Designed and built an autonomous IoT-based smart irrigation system to optimize agricultural water usage by integrating various environmental sensors with an Arduino-powered unmanned vehicle.
 - *Tech Stack: Python, Pandas, Arduino, IoT Sensors.*
- **BlockMyShow - Blockchain-Powered Ticketing System** [GitHub Link](#)
 - Engineered a decentralized ticketing platform using Solidity smart contracts to mint tickets as unique, verifiable NFTs, preventing ticket fraud and ensuring verifiable ownership.
 - *Tech Stack: Solidity, Next.js, SanityDB, Ethereum, Hardhat, Web3.js.*
- **Zen-Share - File Sharing Platform** [GitHub Link](#)

- Architected a file sharing application using provisions for file uploading , storage and sharing via email and links with beautiful and seamless UI/UX.
- *Tech Stack: Next.js, Firebase, Material-UI.*

Technical Skills

- **Languages:** JAVA, C++, Python, JavaScript, TypeScript, C
- **Frameworks & Libraries:** Spring Boot, React.js, Next.js, Node.js, Flask, Tailwind CSS, HTML, CSS
- **Databases:** PostgreSQL, MySQL, MongoDB, Firebase
- **Developer Tools & Cloud:** Git, Docker, AWS (EC2, S3), Postman API, Vercel
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures Algorithms, DBMS, REST APIs, SDLC

Certifications

- **AWS Academy Graduate - Cloud Foundations** [Link](#) AWS Training and Certification, 2025
- **Full-Stack Web Development Bootcamp** [Link](#) Udemy, 2025
- **Postman API Fundamentals Student Expert** [Link](#) Postman, 2023
- **Social Summer of Code** [Link](#) Social Winter of Code, 2024
- **HackNitr 5.0 Participation** [Link](#) NIT Rourkela, 2024
- **Synchronicity S1** [Link](#) Jadavpur University ACM, 2024
- **Diversion 2k24 Participation** [Link](#) IEM Kolkata, 2024

Awards and Honours

- **Second Runners-Up**, Hack Heritage 2023 [Link](#) HIT, Kolkata
- **Gold Medal**, International Mathematics Olympiad [Link](#) SOF, 2022
- **Medal of Distinction**, National Science Olympiad [Link](#) SOF, 2022

Hobbies & Interests

- Drawing & Painting — Cricket — Football
